Shifter Country Box Set 1 Jul 30 2020 Exile Rachel Kane's recovering from a broken heart. And she's broke. She's flat out broke and homeless since she found her boyfriend in her best friend's arms in the home that he and Rachel shared. A home he owned, so of course, she's out on her ear now. She's got an invitation to take an opportunity that takes her out of state and pays for her living expenses. Maybe some clouds do have silver linings. She'll take that offer to go to Nevada and study mustangs. Luke Everhart's got one thing on his mind. Being left the hell alone. He's been exiled from his pack—and that's just fine—and now makes his home near Iron Flats Mesa on the Virginia Range in Nevada. He gets along great with the mustangs that make their home there,

and they're the only company he needs. In fact, he's their self-appointed guardian, protecting them from some of the ranchers and government bureaucrats who want to manipulate disrupt their freedom. And wouldn't you know it, there's a certain woman who's been skulking around, checking out the mustangs, making notes, riding a damned UTV all over the range. He knows she's from the government, and he has zero trust for the Bureau of Land Management. He's wreaked havoc on their expeditions before. Little Miss Hot Researcher has another think coming if she believes she's going to be able to turn in any research on his band of horses. How's Rachel supposed to complete her job when she's harassed by wolves and a hunky, muscular, blue-eyed, dark-skinned hottie who doesn't want to do much more than grunt his responses and howl at the moon? Justice Maisie Malone's got a problem. It started out at 22 and inches, 8 pounds, 12 ounces. It's grown to 30 inches and 21 pounds. She doesn't consider it much of a problem at all. More like a blessing. But she's not the only one who wants this bouncing baby boy in her life. He's got a grandfather with a hell of a mean streak and enough money to buy practically anyone. And said grandfather wants no loose ends. To make matters worse? The bouncing baby boy has fur and growls. Semi-retired bodyguard turned bounty hunter, Judd Walker would just as much rather be left alone in his cabin on the outskirts of Crooked Arrow Ranch as he would keep company with anyone.

But hey, even a solitary wolf shifter needs to bring some money in once in a while. So when Paul MacIntosh offers him an ungodly amount to find his missing grandson and bring him home to Bitter Hollow, Judd has no problem accepting the job. How hard can it be to bring a one-year-old little boy home? Judd didn't count on the tenacity and protectiveness of a mother. Even a human mother. He also didn't count on Paul MacIntosh having a hidden agenda, one which did not include Maisie Malone breathing. Rebel Darby's a wolf shifter's human daughter. What's that meant in her life? Her father views her as a flawed individual. A failure. So when her human mother and her shifter father split up, he had no interest in her. What's it do to a girl? It creates an obstinate streak which gets caught up on all the wrong priorities. She wants to prove herself to her wolf shifter father by infiltrating the Crooked Arrow Ranch shifters and getting information for her dad. She's got no plan. She's shooting from the hip. Jared's riled up about the rule-breaking going on at Crooked Arrow. They have brought human mates. Now how is this supposed to fit into the rules on the Virginia Range? Granted, the rules are more of an understanding built on respect. On his grandfather's principles. The rules state: Shifters keep a low profile. Shifters do not kill humans. Shifters do not attempt to turn humans. Lore says it's myth a bite can turn humans. Others say it takes witchery. Back to Jared. Back to those rules. How can shifters keep a low profile when they are mating with

humans for frack's sake?

Sydney Rye Mysteries Books 1-8 May 08 2021 The first eight books in the Sydney Rye Mysteries: *Unleashed*, *Death in the Dark*, *Insatiable*, *Strings of Glass*, *The Devil's Breath*,

Inviting Fire, *Shadow Harvest*, and *The Girl with the Gun*. My dog once took a bullet that was intended for me. A bullet that ripped through his chest, narrowly missing his heart, and exited through his shoulder blade, effectively shattering it. This left him unconscious on the floor of my home. Amazingly, this bullet did not kill him. Ten years ago I adopted Blue as a present to myself after I broke up with my boyfriend one hot, early summer night with the windows open and the neighborhood listening. The next morning I went straight to the pound in Bushwick, Brooklyn. Articles on buying your first dog tell you never to buy a dog on impulse. They want you to be prepared for this new member of your family, to understand the responsibilities and challenges of owning a dog. Going to the pound because you need something in your life that's worth holding onto is rarely, if ever, mentioned. I asked the man at the pound to show me the biggest dogs they had. He showed me some seven-week-old Rottweiler-German shepherd puppies that he said would grow to be quite large. Then he showed me a six-month-old shepherd that would get pretty big. Then he showed me Blue, the largest dog they had. The man called him a Collie mix and he was stuffed into the biggest cage they had, but he didn't fit. He was as tall as a Great Dane but much skinnier, with the snout of a collie, the markings of a Siberian husky, the ears and tail of a shepherd and the body of a wolf, with one blue eye and one brown. Crouched in a sitting

position, unable to lie down, unable to sit all the way up, he looked at me from between the bars, and I fell in love. "He's still underweight," the man in the blue scrubs told me as we looked at Blue. "I'll tell you, lady, he's pretty but he's skittish. He sheds, and I mean sheds. I don't think you want this dog." But I knew I wanted him. I knew I had to have him. He was the most beautiful thing I had ever seen. Blue cost me \$108. I brought him home, and we lived together for years. He was, for most of our relationship, my only companion. But when I first met Blue, a lifetime ago now, I had family and friends. I worked at a crappy coffeehouse. I was young and lost; I was normal. Back then, at the beginning of this story, before I'd ever seen a corpse, before Blue saved my life, before I felt what it was like to kill someone in cold blood, I was still Joy Humbolt. I'd never even heard the name Sydney Rye. P.S. The dog does not die. **Beware: If you can't handle a few f-bombs, you can't handle this series.**

A Bank Street Best Children's Book of the Year A New York Public Library 100 Titles for Reading and Sharing What do the most famous traitor in history, hundreds of naked soldiers, and a salmon lunch have in common? They're all part of the amazing story of the American Revolution. Entire books have been written about the causes of the American

Revolution. This isn't one of them. What it is, instead, is utterly interesting, anecdotes (John Hancock fixates on salmon), from the inside out (at the Battle of Eutaw Springs, hundreds of soldiers plunged into battle "naked as they were born") close-up narratives filled with little-known details, lots of quotes that capture the spirit and voices of the principals ("If need be, I will raise one thousand men, subsist them at my own expense, and march myself at their head for the relief of Boston" --George Washington), and action. It's the story of the birth of our nation, complete with soldiers, spies, salmon sandwiches, and real facts you can't help but want to tell to everyone you know. "For middle-graders who find Joy Hakim's 11-volume *A History of US* just too daunting, historian Sheinkin offers a more digestible version of our country's story...The author expertly combines individual stories with sweeping looks at the larger picture—tucking in extracts from letters, memorable anecdotes, pithy characterizations and famous lines with a liberal hand."—Kirkus Reviews Also by Steve Sheinkin: *Bomb: The Race to Build—and Steal—the World's Most Dangerous Weapon* *The Notorious Benedict Arnold: A True Story of Adventure, Heroism & Treachery* *The Port Chicago 50: Disaster, Mutiny, and the Fight for Civil Rights* *Undeclared: Jim Thorpe and the Carlisle Indian School Football Team* *Most Dangerous: Daniel Ellsberg and the Secret History of the Vietnam War* *Which Way to the Wild West?: Everything Your Schoolbooks Didn't Tell You About*

Tricks and Games to Teach Your Dog Nov 02 2020 Who doesn't want to spend more time playing?! *Tricks and Games to Teach Your Dog* is the how-to book for dog owners looking to improve their "fun factor" in their dogs' eyes. Author Sophie Collins, assisted by Suellen Dainty, promise that any owner of a dog; no matter what age, breed, activity level, size or personality; can transform his pooch into an accomplished performer in brief daily five-minute training sessions. In all, the book offers 80 tricks and games, from the tried-and-true rainy-day tricks like "roll over" and "play dead" to out-of-the-box surprises like "lion tamer" and the "commando crawl." Fully illustrated with color photographs and drawings, *Tricks and Games to Teach Your Dog* serves as a game plan for busy owners who wish to spend more quality time with their dogs, engaging them in educational games to improve their obedience skills while deepening the dogs' bonds with their owners. Readers can teach their dogs helpful household tasks, such as the "laundry service," "fetch my keys" and "answer the door," as well as games that expand their repertory of manners, such as "say please,"

"learning a 'stop' signal," and "dinner time."

The authors emphasize the importance of safety in teaching tricks and games and caution owners to only work with safe objects when teaching fetching or finding games. The book is filled with practical training tips that owners can use throughout their dogs' lives. Once an owner is confident and aware of his own technique, he will be better prepared to give the dog specific direction and not confuse the dog by giving false cues or misusing body language, tone of voice or hand signals. The level of difficulty in the lessons range from the simplest ("high five" and "stand ten") to more challenging tricks like "shut the door," "push the ball" and "freeze." The unmistakable focus of the book is fun and activity, and no dog (or owner) ever wants to lead a dull, boring existence. To that end, the authors discuss some great fun outings to bring an owner's play sessions with his dog to an all-time high: camping, volleyball, biking and hiking for starters. And for really adventurous overachievers, the authors provide a brief introduction to the ever-popular obstacle-course sport known as dog agility.

He knows she's from the government, and he has zero trust for the Bureau of Land Management. He's wreaked havoc on their expeditions before. Little Miss Hot Researcher has another think coming if she believes she's going to be able to turn in any research on his band of horses. How's Rachel

supposed to complete her job when she's harassed by wolves and a hunky, muscular, blue-eyed, dark-skinned hottie who doesn't want to do much more than grunt his responses and howl at the moon? Iron Flats Justice Maisie Malone's got a problem. It started out at 22 and inches, 8 pounds, 12 ounces. It's grown to 30 inches and 21 pounds. She doesn't consider it much of a problem at all. More like a blessing. But she's not the only one who wants this bouncing baby boy in her life. He's got a grandfather with a hell of a mean streak and enough money to buy practically anyone. And said grandfather wants no loose ends. To make matters worse? The bouncing baby boy has fur and growls. Semi-retired bodyguard turned bounty hunter, Judd Walker would just as much rather be left alone in his cabin on the outskirts of Crooked Arrow Ranch as he would keep company with anyone. But hey, even a solitary wolf shifter needs to bring some money in once in a while. So when Paul MacIntosh offers him an ungodly amount to find his missing grandson and bring him home to Bitter Hollow, Judd has no problem accepting the job. How hard can it be to bring a one-year-old little boy home? Judd didn't count on the tenacity and protectiveness of a mother. Even a human mother. He also didn't count on Paul MacIntosh having a hidden agenda, one which did not include Maisie Malone breathing. Iron Flats Rebel Darby's a wolf shifter's human daughter. What's that meant in her life? Her father views her as a flawed individual. A failure. So when her human

mother and her shifter father split up, he had no interest in her. What's it do to a girl? It creates an obstinate streak which gets caught up on all the wrong priorities. She wants to prove herself to her wolf shifter father by infiltrating the Crooked Arrow Ranch shifters and getting information for her dad. She's got no plan. She's shooting from the hip. Jared's riled up about the rule-breaking going on at Crooked Arrow. They have brought human mates. Now how is this supposed to fit into the rules on the Virginia Range? Granted, the rules are more of an understanding built on respect. On his grandfather's principles. The rules state: Shifters keep a low profile. Shifters do not kill humans. Shifters do not attempt to turn humans. Lore says it's myth a bite can turn humans. Others say it takes witchery. Back to Jared. Back to those rules. How can shifters keep a low profile when they are mating with

humans for frack's sake? And what if other packs find out about this? Shifters mating with humans doesn't guarantee shifter babies. It makes it a coin toss.

Getting Out Jul 18 2019 *Getting Out* - Excerpts from a Cat's Diary is the first book in a trilogy of at least four books (according to the author). Translated from the original Cat by John Woodcock. It is a humorous 'diary' where 'Bridget Jones' meets 'The Great Escape' head on. The escapee is a domestic cat who believes that he is a great diarist and describes, in his own words, his almost daily escape attempts. Over 400, yes four hundred pages of laughter!

YEARS OF THE FOREST Dec 15 2021 This is a book that takes us inside the Hoovers' wilderness home during those sixteen Years of the Forest and lets us experience not only the joys and the techniques but also the challenges and travails of going it alone in the beautiful but not always accommodating wilderness, far

from the technology and services that city people take for granted. It is a book of wilderness adventure, it is an education in the ingenuities of wilderness housekeeping, filled with practical details about making do, building and rebuilding, gardening for fun and for food, even advice about getting away from getting-away-from-it-all. Good times and Hard times, good neighbors and bad neighbors, the strains engendered by conflicting views—and passions—about the use of the environment: Mrs. Hoover shares her experience without stint. But above all—over, under, and all around her straightforward and practical approach to life in the wilderness—there is, as always, the sensitive and moving awareness of nature (especially of the animals with whom she and her husband shared the forest, often helping them through starving winters) that is the special quality of her writing and her life.
