The youngest living Medal of Honor recipient delivers an unforgettable memoir that "will inspire every reader" (Jim Mattis) NATIONAL BESTSELLER | A Marine Commandant's Reading List selection On November 21, 2010, U.S. Marine Lance Corporal Kyle Carpenter was posted atop a building in

violent Helmand Province, Afghanistan, when an enemy grenade skittered toward Kyle and fellow Marine Nick Eufrazio. Without hesitation, Kyle chose a path of selfless heroism that few can imagine. He jumped on the grenade, saving Nick but sacrificing his own body. Kyle Carpenter's heart flatlined three times while being evacuated off the

battlefield in Afghanistan. Yet his spirit was unbroken. Severely wounded from head to toe, Kyle lost his right eye as well as most of his jaw. It would take dozens of surgeries and almost three years in and out of the hospital to reconstruct his body. From there, he began the process of rebuilding his life. What he has accomplished in the last nine years is extraordinary: he's come back a stronger, better, wiser person. In 2014, Kyle was awarded the nation's highest military decoration, the Medal of Honor, for his "singular act of courage" on that rooftop in Afghanistan, an action which had been reviewed exhaustively by the military.

Kyle became the youngest living recipient of the award—and only the second living Marine so honored since Vietnam. Kyle's remarkable memoir reveals a central truth that will inspire every reader: Life is worth everything we've got. It is the story of how one man became a so-called hero who willingly laid down his life for his brother-in-arms—and equally, it is a story of rebirth, of how Kyle battled back from the gravest challenge to forge a life of joyful purpose. *You Are Worth It* is a memoir about the war in Afghanistan and Kyle's heroics, and it is also a manual for living. Organized around the credos that have guided Kyle's life (from "Don't Hide

*Your Scars*" to "Call Your Mom"), the book encourages us to become our best selves in the time we've been given on earth. Above all, it's about finding purpose, regardless of the hurdles that may block our way. Moving and unforgettable, *You Are Worth It* is an astonishing memoir from one of our most extraordinary young leaders.

the battlefield. They are task organized as a highly trained six man team capable of conducting specific missions behind enemy lines. Employed as part of the Marine Air-Ground Task Force, reconnaissance teams provide timely information to the supported commander to shape and influence the battlefield. The varying types of missions a Reconnaissance team conduct depends on how deep in the battle space they are operating. Division Reconnaissance units support the close and distant battlespace, while Force Reconnaissance units conduct deep reconnaissance in support of a landing force. Common missions include, but are not

limited to: Plan, coordinate, and conduct amphibious-ground reconnaissance and surveillance to observe, identify, and report enemy activity, and collect other information of military significance. Conduct specialized surveying to include: underwater reconnaissance and/or demolitions, beach permeability and topography, routes, bridges, structures, urban/rural areas, helicopter landing zones (LZ), parachute drop zones (DZ), aircraft forward operating sites, and mechanized reconnaissance missions. When properly task organized with other forces, equipment or personnel, assist

in specialized engineer, radio, and other special reconnaissance missions. Infiltrate mission areas by necessary means to include: surface, subsurface and airborne operations. Conduct Initial Terminal Guidance (ITG) for helicopters, landing craft, parachutists, air-delivery, and re-supply. Designate and engage selected targets with organic weapons and force fires to support battlespace shaping. This includes designation and terminal guidance of precision-guided munitions. Conduct post-strike reconnaissance to determine and report battle damage assessment on a specified target or area. Conduct limited

The classic work on the evaluation of city form. What does the city's form actually

mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

Leading Marines 2 May 2016  
The act of leading Marines is a sacred responsibility and a rewarding experience. This publication describes a leadership philosophy that speaks to who we are as Marines. It is about the relationship between the leader and the led. It is also about the bond between all Marines that is formed in the common forge of selfless service and shared hardships. It's in this forge where Marines are hardened like steel, and the undefinable spirit that forms the character of our Corps is born. It draws from shared experiences, hardships, and challenges in

training and combat. Leading Marines is not meant to be read passively; as you read this publication, think about the material. You should reflect on, discuss, and apply the concepts presented in this publication. Furthermore, it is the responsibility of leaders at all levels to mentor and develop the next generation of Marine leaders.

**The Last Hundred Yards** Apr 17 2021 This is a first in American literature - the first "how-to" book for infantrymen. The product of ten years experimentation & research into small-unit infantry tactics, this work goes far beyond what any U.S. manual can say about the "detail of tactical execution" - the composite techniques needed to execute any tactical maneuver. And, it does so without violating U.S. doctrine! As enemy weapon systems & detection devices improve, U.S. infantrymen must operate in smaller units.

To do so, they will need the skills discussed herein. The "maneuver" style of warfare used by U.S. "task forces" in the Gulf must now be practiced at the squad level. Small units must train "from the bottom up" to achieve better teamwork, less predictability, fewer casualties, & more decisive victory. Two authorities on modern war say this: (1) "...best book on ground tactics in English in the last 50 years."-- B.I. Gudmundsson (Stormtroop Tactics & On Infantry); (2) "...fills a long-standing void by relating maneuver warfare concepts to techniques."--Bill Lind (Maneuver Warfare Handbook). Initially, cultural sensitivity training (i.e., cursory etiquette instruction) was employed in 2003, to prepare Marines for the Invasion of Baghdad during OIF I. By 2004, when the 1st Marine Division returned to Iraq for OIF II, training had evolved into culture awareness

classes (i.e., introductory history, politics, religion overview). It was not until 2005 that training progressed into today's operational culture learning.

**USMC Combat Hunter Training Introduction And Fundamentals: Profiling, Tactical Tracking, Observation Theory, Tactical Fundamentals, Planning And More** Dec 26 2021

COMBAT HUNTER TRAINER COURSE Purpose: The purpose of the Combat Hunter Trainer Course is to produce a Marine capable of training a more ethically minded, tactically cunning, and situational aware Marine capable of proactively identifying threats in any

environment. Scope: The Combat Hunter Trainer Course enhances the safety and security of Marines across the range of military operations, whether in garrison, on liberty, or on the battlefield. Marines are trained to observe and recognize human behaviors, patterns and trends that are indicative of a threat and to act on that threat quickly and decisively through an improved and matured decision-making process. The Marine receives training in planning, conducting, and evaluating training events to include classes on small unit training and unit training management. Combat Hunter training includes Introduction to

Combat Hunter, Observation Devices, Criminal and Insurgent Networks, Decision Cycle, Enhanced Observation, KIM Technique, Introduction to Profiling, Heuristics, Profiling Domains, Terrorist Planning Cycle, Tactical Questioning, Analyze and Interpret Spoor, Individual Actions in a Tracking Team, Track Exploitation, Leading a Tracking Team, and Tactical Site Exploitation. DEFINITION AND MISSION OF THE COMBAT HUNTER. A combat hunter selects, uses, and maximizes the appropriate optics available to see objects and events, both hidden and distant. These optics range from the naked eye to advanced optical systems. A

combat hunter, through attention to detail, establishes a baseline of an environment and detects the anomalies located within that environment. A combat hunter tracks humans and vehicles by reading the natural terrain. He pursues an armed enemy and gathers data that may suggest the enemy's action and intent. The combat hunter is the creation of a mindset through the integration of enhanced observation, combat profiling, and combat tracking. This mindset will enable Marines to locate, close with, and destroy an elusive enemy that hides among the population and uses asymmetric tactics to attack our forces. By utilizing

enhanced observation, combat profiling, and combat tracking, a Marine is more lethal, survivable, and tactically cunning. He becomes a force multiplier to his unit's operations. OBSERVATION. Observation begins with the gathering and processing of information obtained through the senses. The five sensory systems are sight, hearing, smell, touch, and taste that allow information to be collected from the environment. Perception is the process that the mind uses to organize the sensory information into an understandable interpretation of the environment. Central to all these skills is a critically-

thinking Marine whose decisions can be affected by numerous factors, both external and internal. The Marine refines his decision making capabilities by understanding the decision cycle process and his awareness of the physical and biological responses he goes through when faced with a dynamic situation. Refining these skills and understanding the effects they have on his mind and body make him more capable and more lethal. The Military Justice System Jun 19 2021 "This text is designed to give the advanced Air Force ROTC student an over-all view of the military justice system, of how it operates in the Air

Force, and of the general responsibilities of those in 'authority or command' who must administer the system. And, above all, it is hoped that the text will engender a feeling that military justice is directly, intimately, and essentially concerned with human conduct - rather than with arbitrary rules, legalistic distinctions, and inflexible classifications"-- Pref.

### The Last Stand of Fox Company

Jul 29 2019 "The authors of the bestselling Halsey's Typhoon do a fine job recounting one brutal, small-unit action during the Korean War's darkest moment." —Publishers Weekly November 1950, the Korean

Peninsula. After General MacArthur ignores Mao's warnings and pushes his UN forces deeper into North Korea, his 10,000 First Division Marines find themselves surrounded and hopelessly outnumbered by 100,000 Chinese soldiers near the Chosin Reservoir. Their only chance for survival is to fight their way south through the Toktong Pass, a narrow gorge that will need to be held open at all costs. The mission is handed to Captain William Barber and the 234 Marines of Fox Company, a courageous but undermanned unit of the First Marines. Barber and his men climb seven miles of frozen terrain to a rocky

promontory overlooking the pass, where they will endure four days and five nights of nearly continuous Chinese attempts to take Fox Hill. Amid the relentless violence, three-quarters of Fox's Marines are killed, wounded, or captured. Just when it looks like they will be overrun, Lt. Colonel Raymond Davis, a fearless Marine officer who is fighting south from Chosin, volunteers to lead a daring mission that will seek to cut a hole in the Chinese lines and relieve the men of Fox. This is a fast-paced and gripping account of heroism in the face of impossible odds.

The current lack of uniformity about what constitutes ethical behaviour and how troops should be educated in it is potentially a cause for serious alarm. This book advances knowledge and understanding of the issues associated with this subject by bringing together experts from around the world to analyze the content, mode of instruction, theoretical underpinnings, and the effect of cultural and national differences within current ethics programmes. Since Fleet Marine Force Manual 1, Warfighting, was first published in 1989, it has had a significant impact both inside and outside the Marine Corps. That manual has changed the way Marines think about warfare. It has caused energetic debate and has been translated into several foreign languages, issued by foreign militaries, and published commercially. It has strongly influenced the development of doctrine by our sister Services. Our current naval doctrine is based on the tenets of maneuver warfare as described in that publication. Current and emerging concepts such as operational maneuver from the sea derive their doctrinal

foundation from the philosophy contained in Warfighting. Our philosophy of warfighting, as described in the manual, is in consonance with joint doctrine, contributing to our ability to operate harmoniously with the other Services.

OFFICER BASIC COURSE (WOBC) 1-18 INFORMATION  
Congratulations on your selection as a Warrant Officer of Marines. You are about to embark upon a truly remarkable journey as an officer of Marines. That journey begins with your successful completion of the Warrant Officer Basic Course (WOBC) at The Basic School (TBS) in Quantico, Virginia. Warrant Officers and Title 10: Warrant Officer (WO) is an appointed rank, vice a commissioned one. Chief Warrant Officers (Marine Gunners and Recruiting Officers) are commissioned. All Chief Warrant Officers and Warrant Officers must successfully complete the

WOBC in order to retain their appointment or commission. Title 10 U.S.C. Section 1165 states: THE SECRETARY OF THE NAVY HAS THE AUTHORITY TO TERMINATE THE REGULAR APPOINTMENT OF ANY PERMANENT REGULAR WO AT ANY TIME WITHIN THREE YEARS AFTER THE DATE WHEN THE OFFICER ACCEPTED HIS ORIGINAL PERMANENT APPOINTMENT. A MARINE WHOSE APPOINTMENT IS TERMINATED MAY, UPON HIS REQUEST AND AT THE DISCRETION OF THE SECRETARY OF THE NAVY, BE ENLISTED IN A GRADE NOT LOWER THAN THAT

HELD IMMEDIATELY PRIOR TO APPOINTMENT. THEREFORE, THE FIRST THREE YEARS AS A WO IS A PROBATIONARY PERIOD AND THE APPOINTMENT TO WO WILL BE TERMINATED IF A MARINE DOES NOT COMPLETE THE REQUIREMENTS OF THE WOBC. WOBC MISSION STATEMENT: Train and educate newly appointed warrant officers in the high standards of professional knowledge esprit-de-corps, and leadership required to transition from enlisted Marine to officer with particular emphasis on the duties, responsibilities and warfighting skills required of a provisional

rifle platoon commander. The Warrant Officer Basic Course: The WOBC is an eighteen-week course that focuses on the transition from enlisted Marine to Marine officer. TBS and the WOBC focus on five horizontal themes that define expectations of all Marine Officers: (1) a man/woman of exemplary character, (2) devoted to leading Marines 24/7, (3) able to decide, communicate, and act in the fog of war, (4) a Warfighter who embraces the Corps' warrior ethos, and (5) mentally strong and physically tough. The universal concept that Marine Officers must be able to assess situations, weigh the pros and cons of various

decisions, make a decision, develop a plan, communicate that plan effectively, and supervise its execution is stressed and exercised throughout the course. The course will teach the science and art required for service of Marine Officers with an emphasis on decision making throughout. Provisional infantry and planning subjects are together used as the means or vehicle to teach and evaluate this process. Since all students are evaluated on leadership as Marine Officers; physical, mental, and emotional stress are incorporated throughout the course in order to evaluate the ability to lead in chaotic and stressful

environments. Some individuals will be pushed close to their failing point, but the WOBC is designed to give students an opportunity to display positive leadership qualities in the face of adversity. The WOBC is not a "check in the block." It is a course designed to provide students with the learning experiences necessary to effectively transition to service as a Marine Officer. Students who do not successfully complete the course face a variety of administrative actions, including repetition of the course, recycle to a six month lieutenant Basic Officer Course, revocation of appointment, or separation

from the service. The WOBC curriculum is an academically rigorous, provisional infantry and staff planning based program of instruction (POI) which consists of approximately 935 hours of formal instruction. The POI includes classroom instruction, field exercises, sand table exercises, and discussion
