 The Collaborative Art of Filmmaking Nov 05 2022 The Collaborative Art of Filmmaking: From Script to Screen explores what goes into the making of Hollywood's greatest motion pictures. Join veteran script consultant Linda Seger as she examines contemporary and classic screenplays on their perilous journey from script to screen. This fully revised and updated edition includes interviews with over 80 well-known artists in their fields including writers, producers, directors, actors, editors, composers, and production designers. Their discussions about the art and craft of filmmaking – including how and why they make their decisions – provides filmmaking and screenwriting students and professionals with the ultimate guide to creating the best possible "blueprint" for a film and to also fully understand the artistic and technical decisions being made by all those involved in the process.

 Raising Human Beings Mar 17 2021 The renowned child psychologist explains how to cultivate a better parent-child relationship while also nurturing empathy, honesty, resilience, and independence. Parents have an important task: figure out who their child is--his or her skills, preferences, beliefs, values, personality traits, goals, and direction--get comfortable with it, and then help him or her pursue and live a life that is congruent with it. But parents also want to have influence. They want their kid to be independent, but not if he or she is going to make bad choices. They don't want to be harsh and rigid, nor do they want a noncompliant, disrespectful kid. They want to avoid being too pushy and overbearing, but not if an unmotivated, apathetic kid is what they'll have to show for it. They want to have a good relationship with their kid, but not if that means being a pushover. They don't want to scream, but they do want to be heard. Good parenting is about striking the balance between a child's characteristics and a parent's desire to have influence. Now, Dr. Ross Greene offers a detailed and practical guide for raising children in a way that enhances relationships, improves communication, and helps kids learn how to resolve disagreements without conflict. Through his well-known model of solving problems collaboratively, parents can forgo time-out and sticker charts; stop badgering, berating, threatening, and punishing; allow their kids to feel heard and validated. From homework to hygiene and curfews to screen time, Raising Human Beings arms parents with the tools they need to raise kids in ways that are non-punitive and non-adversarial to bring out the best in both parents and children.--Adapted from dust jacket.

Library Consortia Mar 05 2020 No library stands alone. A long-standing tenet of the discipline, library cooperation predates the founding of ALA. Although these are times of crisis and uncertainty for library consortia (by one count, more than 65 consortia have closed since 2008), the collaboration that consortia offer helps libraries extend the value of every dollar spent. With over 35 years of experience managing five different library consortia between them, Horton and Pronevitz are uniquely qualified to show how consortia have been transforming themselves, offering new services and products while growing ever more important to the library community. Covering the history, current landscape, management approaches, critical trends, and key services that define today's library consortia, they Highlight the current trends impacting consortia and the fiscal difficulties many have experienced since the 2007-2009 RecessionPresent conclusions drawn from sixteen case studies and the results of a recent survey on consortial environment and priorities Look into current management practices and give an overview of consortia activities, such as such as e-book technology and delivery methodsDiscuss the Discover to Delivery continuum, a key trend that allows libraries to maximize services This book will help new library staff understand the full range of activities that take place in today's consortia, while also showing consortia managers, participants in consortial governance, and participating libraries methods for revising current practices, places for expanding services, and adopting new project ideas.

The Screenwriters Taxonomy Mar 29 2022 In The Screenwriters Taxonomy, award-winning screenwriter and educator Eric R. Williams offers a new collaborative approach for creative storytellers to recognize, discuss and reinvent storytelling paradigms. Williams presents seven different aspects of storytelling that can be applied to any fictional narrative film—from super genre, macrogenre and microgenre to voice and point of view—allowing writers to analyze existing films and innovate on these structures in their own stories. Moving beyond film theory, Williams describes how this roadmap for creative decision making can relate to classics like Sunset Boulevard, The Wizard of Oz and Butch Cassidy and the Sundance Kid as well as such diverse modern favorites like 12 Years a Slave, Anomalisa and Shrek.

Lost at School Dec 14 2020 The author of The Explosive Child counsels parents and educators on how to best safeguard the interests of children with behavioral, emotional, and social challenges, in a guide that identifies the misunderstandings and practices that are contributing to a growing number of challenged student failures. 60,000 first printing.

Collaborative Writing in L2 Classrooms May 19 2021 In this first book-length treatment of collaborative writing in second language (L2) classrooms, Neomy Storch provides a theoretical, pedagogical and empirical rationale for the use of collaborative writing activities in L2 classes, as well as some guidelines about how to best implement such activities in both face-to-face and online mode. The book discusses factors that may impact on the nature and outcomes of collaborative writing, and examines the beliefs about language learning that underpin learners' and teachers' attitudes towards pair and group work. The book critically reviews the available body of research on collaborative writing and identifies future research directions, thereby encouraging researchers to continue investigating collaborative writing activities.

The Power of Collaboration Sep 30 2019 To succeed these days your organization must create amazing results. Your employees and teams may be quite capable of handling their specific areas of focus, but unless you get them to work together, your products, services, and profits will suffer. While progress has been made, maximizing collaboration is still a challenge for many companies. They need a new approach. Over the last quarter century, California's Silicon Valley has become synonymous with building complex, successful businesses. Companies and leaders there have succeeded because they did more than apply existing business models—they created a new model for collaboration. Dr. Thea Singer Spitzer has combined her longstanding expertise on this subject with innovative thinking, research, and focused interviews with Silicon Valley leaders to create a practical framework for the next epoch of collaboration. The Power of Collaboration shows how any company, anywhere, can adapt to achieve its goals. This cutting-edge title features: Narratives about collaboration from top leaders in Silicon Valley. A sensible, straightforward collaboration framework. Positive, realistic hints for adapting that framework to your organization. With The Power of Collaboration as your guide, those amazing results will be surprisingly easy to achieve.

Our Next Evolution Oct 12 2020 The environmental crisis is advancing at an unprecedented pace and scale. It will outpace us if we don't turn our attention to an even deeper concern regarding the future of humanity: we need to work together to create change. Our current approach to collaboration is outmoded. To transform our world, we must transform the way we lead. We collectively share the power and responsibility for a more just, inclusive, and sustainable future. Leaders who hope to shape that future must develop the ability to embrace relationships-to ourselves, to one another, and to the natural world-as our most impactful, influential tool. Our Next Evolution delivers a framework for

21st century collaboration through four interlinked leadership practices: Cultivating Presence, Creating Space, Leveraging Diversity, and Sustaining Dialogue. These four practices enable us to take collective action in new ways, carving a path toward a future we crave but can't yet see. We have the capacity to create vibrant communities, build thriving economies, and sustain our natural resources-but only when we learn to do so together. Only when we evolve.

Collaborative Intelligence Oct 24 2021 A breakthrough book on the transformative power of collaborative thinking Collaborative intelligence, or CQ, is a measure of our ability to think with others on behalf of what matters to us all. It is emerging as a new professional currency at a time when the way we think, interact, and innovate is shifting. In the past, "market share" companies ruled by hierarchy and topdown leadership. Today, the new market leaders are "mind share" companies, where influence is more important than power, and success relies on collaboration and the ability to inspire. Collaborative Intelligence is the culmination of more than fifty years of original research that draws on Dawna Markova's background in cognitive neuroscience and her most recent work, with Angie McArthur, as a "Professional Thinking Partner" to some of the world's top CEOs and creative professionals. Markova and McArthur are experts at getting brilliant yet difficult people to think together. They have been brought in to troubleshoot for Fortune 500 leaders in crisis and managers struggling to inspire their teams. When asked about their biggest challenges at work, Markova and McArthur's clients all cite a common problem: other people. This response reflects the way we have been taught to focus on the gulfs between us rather than valuing our intellectual diversity—that is, the ways in which each of us is uniquely gifted, how we process information and frame questions, what kind of things deplete us, and what engages and inspires us. Through a series of practices and strategies, the authors teach us how to recognize our own mind patterns and map the talents of our teams, with the goal of embarking together on an aligned course of action and influence. In Markova and McArthur's experience, managers who appreciate intellectual diversity will lead their teams to innovation; employees who understand it will thrive because they are in touch with their strengths; and an entire team who understands it will come together to do their best work in a symphony of collaboration, their individual strengths working in harmony like an orchestra or a high-performing sports team. Praise for Collaborative Intelligence "Rooted in the latest neuroscience on the nature of collaboration, Collaborative Intelligence celebrates the power of working and thinking together at the highest levels of business and politics, and in the smallest aspects of our everyday lives. Dawna Markova and Angie McArthur show us that our ability to collaborate is not only a measure of intelligence, but essential to solving the world's problems and seeing the possibilities in ourselves and others."—Arianna Huffington "This inspiring book teaches you how to align your intention with the intention of others, and how, through shared strengths and talents, you have every right to expect greatness and set the highest goals and expectations."—Deepak Chopra "Everyone talks about collaboration today, but the rhetoric typically outweighs the reality. Collaborative Intelligence offers tangible tools for those serious about becoming 'system leaders' who can close the gap and make collaboration real."—Peter M. Senge, author of The Fifth Discipline "I have worked with Markova and McArthur for several years, focusing on achieving better results through intellectual diversity. Their approach has encouraged more candid debate and collaborative behavior within the team. The team, not individuals, becomes the hero."—Al Carey, CEO, PepsiCo

Collaborative Action Research for English Language Teachers Jul 29 2019 This book presents first-person accounts providing the basis for exploring the challenges and constraints of action research.

Tasks Before Apps Jul 01 2022 Content-hosting websites, videoconferencing apps, grade- or subject-focused social media accounts: with such a dizzying array of mechanical and virtual help at our disposal, it can be a challenge for educators to know where to even start. Educator and technology consultant Monica Burns can relate, which is why she wrote this book: to share strategies, tools, and insights that teachers can use, regardless of subject or grade level, to effectively incorporate technology in the classroom. Focusing on the "three Cs" of technology implementation—creation, curiosity, and collaboration—Tasks Before Apps offers K–12 teachers Detailed advice for (and copious examples of) tech-infused lessons that help students meet learning goals while also developing vital digital citizenship skills. Customizable checklists and graphic organizers for planning tech-enabled activities; choosing appropriate programs, devices, and platforms; and setting unit and lesson goals. Recommendations for and links to apps and online resources that can facilitate and energize learning. Reflection and brainstorming questions for use in book clubs and PLC discussions. Knowing how to navigate technology wisely—how to communicate effectively on posts and message boards, locate credible information on search engines, and select efficient, cost-effective equipment—is essential for both teachers and students. Whether you are a novice or a veteran, teach kindergarten students or high school seniors, this book is an indispensable guide to furthering academic skills, social development, and digital aptitude in the classroom.

Adaptation Considered as a Collaborative Art Sep 03 2022 This book examines the processes of adaptation across a number of intriguing case studies and media. Turning its attention from the 'what' to the 'how' of adaptation, it serves to re-situate the discourse of adaptation studies, moving away from the hypotheses that used to haunt it, such as fidelity, to questions of how texts, authors and other creative practitioners (always understood as a plurality) engage in dialogue with one another across cultures, media, languages, genders and time itself. With fifteen chapters across fields including fine art and theory, drama and theatre, and television, this interdisciplinary volume considers adaptation across the creative and performance arts, with a single focus on the collaborative.

Collaborative Web Development Nov 12 2020 Written by a leader in Web development methodologies and processes, Collaborative Web Development brings structure and sanity to what is often an overwhelming and chaotic process. Designing for the 21st Century Jun 07 2020 As we become familiar with the 21st century we can see that what we are designing is changing, new technologies support the creation of new forms of product and service, and new pressures on business and society demand the design of solutions to increasingly complex problems, sometimes local, often global in nature. Customers, users and stakeholders are no longer passive recipients of design, expectations are higher, and increased participation is often essential. This book explores these issues through the work of 21 research teams. Over a twelve-month period each of these groups held a series of workshops and events to examine different facets of future

design activity as part of the UK's research council supported Designing for the 21st Century Research Initiative. Each of these 21 contributions describes the context of enquiry, the journey taken by the research team and key insights generated through discourse. Editor and Initiative Director, Tom Inns, provides an introductory chapter that suggests ways that the reader might navigate these different viewpoints.

Mastering Collaboration Jul 21 2021 Collaboration is key for organizations in the 21st century, yet few business people have been trained to teach this skill. How do you advance ideas in a collaborative way and then communicate them throughout your company? In this practical book, author Gretchen Anderson shows you how to generate ideas with others while gaining buy-in from all levels of your organization. Product managers, designers, marketers, technical leaders, and executives will obtain better insight into how team members work together to make decisions. Through tangible exercises and techniques, you'll learn how to turn promising ideas into products, services, and solutions that make a real difference in the market. Use a framework to develop ideas into hypotheses to be tested and refined Avoid common pitfalls in the collaboration process Align communication approaches to ensure that collaboration is effective and inclusive Structure events or meetings for different types of collaboration depending on the people involved Practice giving and receiving critiques to foster inclusion without resorting to consensus-based decisions

Wikinomics Feb 13 2021 The acclaimed bestseller that's teaching the world about the power of mass collaboration. Translated into more than twenty languages and named one of the best business books of the year by reviewers around the world, Wikinomics has become essential reading for business people everywhere. It explains how mass collaboration is happening not just at Web sites like Wikipedia and YouTube, but at traditional companies that have embraced technology to breathe new life into their enterprises. This national bestseller reveals the nuances that drive wikinomics, and share fascinating stories of how masses of people (both paid and volunteer) are now creating TV news stories, sequencing the human gnome, remixing their favorite music, designing software, finding cures for diseases, editing school texts, inventing new cosmetics, and even building motorcycles.

A Dangerous Collaboration Aug 22 2021 A bride mysteriously disappears on her wedding day in the newest Veronica Speedwell adventure by the New York Times bestselling author of the Lady Julia Grey series. Lured by the promise of a rare and elusive butterfly, the intrepid Veronica Speedwell is persuaded by Lord Templeton-Vane, the brother of her colleague Stoker, to pose as his fiancée at a house party on a Cornish isle owned by his oldest friend, Malcolm Romilly. But Veronica soon learns that one question hangs over the party: What happened to Rosamund? Three years ago, Malcolm Romilly's bride vanished on their wedding day, and no trace of her has ever been found. Now those who were closest to her have gathered, each a possible suspect in her disappearance. From the poison garden kept by Malcolm's sister to the high towers of the family castle, the island's atmosphere is full of shadows, and danger lurks around every corner. Determined to discover Rosamund's fate, Veronica and Stoker match wits with a murderer who has already struck once and will not hesitate to kill again....

Discussing Design Sep 22 2021 Real critique has become a lost skill among collaborative teams today. Critique is intended to help teams strengthen their designs, products, and services, rather than be used to assert authority or push agendas under the guise of "feedback." In this practical guide, authors Adam Connor and Aaron Irizarry teach you techniques, tools, and a framework for helping members of your design team give and receive critique. Using firsthand stories and lessons from prominent figures in the design community, this book examines the good, the bad, and the ugly of feedback. You'll come away with tips, actionable insights, activities, and a cheat sheet for practicing critique as a part of your collaborative process. This book covers: Best practices (and anti-patterns) for giving and receiving critique Cultural aspects that influence your ability to critique constructively When, how much, and how often to use critique in the creative process Facilitation techniques for making critiques timely and more effective Strategies for dealing with difficult people and challenging situations

Collaboration and Technology May 07 2020 This book constitutes the proceedings of the 17th Collaboration Researchers' International Working Group Conference on Collaboration and Technology, held in Paraty, Brazil, in October 2011. The 12 revised papers presented together with 6 short papers were carefully reviewed and selected from numerous submissions. They are grouped into four themes that represent current areas of interest in groupware research: theoretical foundation, empirical studies, methods and techniques, and tools for communication and cooperation.

Beyond Collaboration Overload Jan 15 2021 A plan for conquering collaborative overload to drive performance and innovation, reduce burnout, and enhance well-being. Most organizations have created always-on work contexts that are burning people out and hurting performance rather than delivering productivity, innovation and engagement. Collaborative work consumes 85% of employees' time and is drifting earlier into the morning, later into the night, and deeper into the weekend. The dilemma is that we all need to collaborate more to create effective organizations and vibrant careers for ourselves. But conventional wisdom on teamwork and collaboration has created too much of the wrong kind of collaboration, which hurts our performance, health and overall well-being. In Beyond Collaboration Overload, Babson professor Rob Cross solves this paradox by showing how top performers who thrive at work collaborate in a more purposeful way that makes them 18-24% more efficient than their peers. Good collaborators are distinguished by the efficiency and intentionality of their collaboration—not the size of their network or the length of their workday. Through landmark research with more than 300 organizations, in-depth stories, and tools, Beyond Collaboration Overload will coach you to reclaim close to a day a week when you: Identify and challenge beliefs that lead you to collaborate too quickly Impose structure in your work to prevent unproductive collaboration Alter behaviors to create more efficient collaboration It then outlines how successful people invest this reclaimed time to: Cultivate a broad network—not a big one—for innovation and scale Energize others—a strong predictor of high performance Connect with others to reduce micro-stressors and enhance physical and mental well-being Cross' framework provides relief from the definitive problem of our age—dysfunctional collaboration at the expense of our performance, health and overall well-being.

Transition Teaming: Feb 02 2020 Schools and community agencies must work together to provide transition services to secondary students with disabilities. Effective transition requires the resources and expertise of adult service agencies, community groups,

employers, families, school transition specialists, teachers and other practitioners. This book provides a step-by-step process and concrete strategies by which secondary special educators can build collaborative relationships with service agencies and others in the community to provide transition services. 26 strategies are broken down into specific activities to bring the needed groups and individuals to the table and into transition teams, and communicate effectively to plan and deliver transition services that are collaborative, effective, and sustainable.

Screenwriting Down to the Atoms Oct 31 2019 There are many books on screenwriting that claim to have all the answers. Unfortunately, quite often the more aspiring writers read, the more confused they become as they encounter contradictory statements, incomplete perspectives, and methods that fail to do more than scratch the surface. "Screenwriting Down to the Atoms" was written to end all the confusion. It picks up where the best leave off and makes up for where the rest fall short by looking closer and digging deeper to reveal the "true" principles beneath great cinematic stories. No confusion. No contradictions. "Atoms" provides a light in the dark to give a full, simple, and truly effective understanding of the craft. "Screenwriting Down to the Atoms" takes the basics "far beyond" the basics. It begins by putting the entire field under the microscope to challenge, and often refute, ideas writers have been taught to assume for decades. It then builds a simple, systematic approach clear enough for any writer to understand and put directly into use. Readers will discover storytelling's "golden key" - an elegantly-simple structure that forms the basis of all other structures. They will learn how to satisfy viewers by meeting the responsibilities of the "storyteller-audience relationship." They will understand how to creatively control story information to give a narrative the greatest dramatic impact. Most writers toil for years to learn these principles. With "Atoms, " you can have this knowledge from the very start. Whether you are working on your fifteenth screenplay or your first, "Screenwriting Down to the Atoms" gives indispensable knowledge found in no other source. "Atoms" is screencraft for the 21st century. The next generation of guides for the next generation of writers.

The Collaborative Director Aug 02 2022 The Collaborative Director: A Department-by-Department Guide to Filmmaking explores the directorial process in a way that allows the director to gather the best ideas from the departments that make up a film crew, while making sure that it is the director's vision being shown on screen. It goes beyond the core concepts of vision, aesthetic taste, and storytelling to teach how to effectively collaborate with each team and fully tap into their creative potential. The structure of the book follows a budget top sheet, with each chapter describing the workflow and responsibilities of a different department and giving insights into the methods and techniques a director can use to understand the roles and dynamics. Each chapter is divided into four sections. Section one provides an overview of the department, section two focuses on directors who have used that department in notably effective ways, section three looks at collaboration from the reverse perspective with interviews from department members, and section four concludes each chapter with a set of tasks directors can use to prepare. Ideal for beginner and intermediate filmmaking students, as well as aspiring filmmakers and early career professionals, this book provides invaluable insight into the different departments, and how a director can utilize the skills and experience of a crew to lead with knowledge and confidence.

Collaborative Learning Jun 27 2019 There is strong evidence that collaborative learning is beneficial to educational development. By engaging in collaborative activity, learners utilise each others perspectives and experiences to solve problems and develop a shared understanding of meanings. Through dialogue and social interaction, learners are empowered to perform outside of their own individual capabilities. Collaborative learning has the potential to benefit learners of all levels of experience and in a variety of situations.

This edited volume showcases a series of studies of theory and case-studies of practice. The book highlights the benefits and challenges of collaborative inquiry, and how these are best managed in practice. The contributors to this volume are comprised of educators from around the world, and collaborative approaches for learners across a broad range of stages of development are discussed. The authors highlight the rich diversity of approaches to learning through collaborative activity, and provide examples of good practice. It also addresses the increasing significance of technology in the support collaborative learning. The benefits technology can bring to collaborative activity have been recognised for several years, and many of the contributions to this volume demonstrate how the impact and scope of collaborative learning may be enhanced by the use of collaborative technologies, social media and Web 2.0 interactive platforms. The examples presented in this edited work illustrate that through technology, collaborative activities no longer need to be confined to the classroom, but may occur across geographical, cultural, and language barriers. Often overcoming these barriers within a collaborative environment proves to be of great benefit to the learners in addition to the knowledge gains offered.

Data Mining and Decision Support Aug 10 2020 Data mining deals with finding patterns in data that are by user-definition, interesting and valid. It is an interdisciplinary area involving databases, machine learning, pattern recognition, statistics, visualization and others. Decision support focuses on developing systems to help decision-makers solve problems. Decision support provides a selection of data analysis, simulation, visualization and modeling techniques, and software tools such as decision support systems, group decision support and mediation systems, expert systems, databases and data warehouses. Independently, data mining and decision support are well-developed research areas, but until now there has been no systematic attempt to integrate them. Data Mining and Decision Support: Integration and Collaboration, written by leading researchers in the field, presents a conceptual framework, plus the methods and tools for integrating the two disciplines and for applying this technology to business problems in a collaborative setting.

The Collaborative Habit May 31 2022 In a career that has spanned four decades, choreographer Twyla Tharp has collaborated with great musicians, designers, thousands of dancers, and almost a hundred companies. She's experienced the thrill of shared achievement and has seen what happens when group efforts fizzle. Her professional life has been -- and continues to be -- one collaboration after another. In this practical sequel to her national bestseller The Creative Habit, Tharp explains why collaboration is important to her -- and can be for you. She shows how to recognize good candidates for partnership and how to build one successfully, and analyzes dysfunctional collaborations. And although this isn't a book that promises to help you deepen your romantic life, she suggests that the lessons you learn by working together professionally can help you in your personal relationships. These lessons about planning, listening, organizing, troubleshooting, and using your talents and those of your coworkers to the fullest are not limited to the arts; they are the building blocks of working with others, like if you're stuck in a 9-to-5 job and have an unhelpful boss. Tharp sees collaboration as a daily practice, and her book is rich in examples from her career. Starting as a twelve-year-old teaching dance to her brothers in a small town in California and moving through her work as a fledgling choreographer in New York, she learns lessons that have enriched her collaborations with Billy Joel, Jerome Robbins, Mikhail Baryshnikov, Bob Dylan, Elvis Costello, David Byrne, Richard Avedon, Milos Forman, Norma Kamali, and Frank Sinatra. Among the surprising and inspiring

points Tharp makes in The Collaborative Habit: -Nothing forces change more dramatically than a new partnership. -In a good collaboration, differences between partners mean that one plus one will always equal more than two. A good collaborator is easier to find than a good friend. If you've got a true friendship, you want to protect that. To work together is to risk it. -Everyone who uses e-mail is a virtual collaborator. -Getting involved with your collaborator's problems may distract you from your own, but it usually leads to disaster. -When you have history, you have ghosts. If you're returning to an old collaboration, begin at the beginning. No evocation of old problems and old solutions. -Tharp's conclusion: What we can learn about working creatively and in harmony can trans- form our lives, and our world.
