skills to improve life for their fellow citizens? Are these societies ever permitted to prevent their own citizens from emigrating? These questions are increasingly important, as the gap between rich and poor societies widens, and as the global migration of skilled professionals intensifies. This volume addresses the ethical rights and responsibilities of such professionals, and of the societies in which they live. Gillian Brock and Michael Blake agree that the phenomenon of the brain drain is troubling, but offer distinct arguments about what might be permissibly done in response to this phenomenon.

Maize for the Gods Aug 27 2022 Maize is the world's most productive food and industrial crop, grown in more than 160 countries and on every continent except Antarctica. If by some catastrophe maize were to disappear from our food supply chain, vast numbers of people would

starve and global economies would rapidly collapse. How did we come to be so dependent on this one plant? Maize for the Gods brings together new research by archaeologists, archaeobotanists, plant geneticists, and a host of other specialists to explore the complex ways that this single plant and the peoples who domesticated it came to be inextricably entangled with one another over the past nine millennia. Tracing maize from its first appearance and domestication in ancient campsites and settlements in Mexico to its intercontinental journey through most of North and South America, this history also tells the story of the artistic creativity, technological prowess, and social, political, and economic resilience of America's first peoples.

Into the Stars Sep 28 2022 From Michael Blake, the #1 New York Times Bestselling Author of *Dances With Wolves*, winner of the Academy Award for Best Movie, Best Director and Best Adapted Screenplay. A new novel about one man's search for peace, in the time of war. Trapped behind enemy lines in the midst of World War I, Ledyard Dixon has three choices. He can surrender to the enemy, he can stay on the run till the war is over, or he can find his way back across enemy territory, through enemy lines, and over the vast expanse of no man's land to rejoin his regiment. Nothing in the world calls him back to the theater of war, but even in the empty villages across the disputed countryside, there is no escaping it, either. As he wanders in search of safety, Ledyard meets an abandoned cavalry horse, Drayton. With Drayton's help, Ledyard avoids capture again and again, both by carrying him away from danger, and by uniting those around him with the common bond of

animal affection. There, in the midst of war and danger, Ledyard learns what it means to love. He is taught by Drayton, who's faithful companionship proves stronger than any human bond, as well as a lone woman with whom they take shelter. Stripped by poverty and grief, the woman has nothing to offer but love. But no bond, however profound, can keep the war at bay. Together, horse and rider learn to fight for life, for beauty, and for peace. With Drayton, Ledyard just might find a way to ride out the war without losing his soul.

move to a reservation or face the armies of America - the Comanches must each make the choice for themselves, to accept the imprisonment of their people and the dissolution of their culture, or to suffer inevitable extinction. Dunbar - return with new, vivid complexity. A novel for any age, *The Holy Road* sheds compelling light on human resilience, social consequences, and the nature of freedom.

“Great Loop Tour,” being careful not to call it a campaign tour, although he intended to seek reelection the following year. Theodore was adamant that his speeches be devoid of any partisan rhetoric, nor would he meet solely with Republican office holders in the various cities and towns he planned to visit. He would happily shake hands with a Democratic mayor or Senator just as he would a Republican. Theodore’s speeches, which he wrote himself, covered subjects of good citizenship, a square deal for every man, a strong navy, and the positive aspects of the recent irrigation bill he signed into law. Then there were his speeches relating to conservation of the land, forests, rivers, and wildlife. Nowhere did these subjects become more important to him than when he visited Yellowstone, the Grand Canyon and Yosemite. While he was still three years away from having the law that would knight him as the “Conservation President,” Theodore was already making his mark on preserving the

country’s resources.

around 1900 BC, the site was abandoned 600 years later during what appears to have been a period of local political turmoil. The decline of Paso de la Amada corresponded with a rupture in local traditions of material culture and local adoption of the Early Olmec style. Stylistically, the material culture of Paso de la Amada corresponds predominantly to the pre-Olmec Mokaya tradition. Excavations at the site have revealed significant earthen constructions from as early as 1700 BC. Those include the earliest

known Mesoamerican ball court and traces of a series of high-status residences. This monograph reports on large-scale excavations in Mounds 1, 12, and 32, as well as soundings in other locations. The volume covers all aspects of excavations and artifacts and includes three lengthy interpretive chapters dealing with the main research questions, which concern subsistence, social inequality, and the organizational history of the site.
