Auditions for such things as youth orchestras, festivals, competitions, or university admissions frequently require the performance of one or more Popper etudes. Learning these etudes is a wonderful way to prepare yourself for the advanced cello repertoire. However, tackling them on your own can be a daunting task. Several authors have published their ideas and suggestions for practicing these etudes whether as articles, books, or videos. What makes this guide different is that it shows you step-by-step exactly how you can effectively practice all the difficult spots in each etude such that you will surely learn and master each one at a faster rate than you would without these suggestions and exercises.

This kind of "Striver" mindset isn't just making kids unhappier, says Dr. Michele Borba...it's actually the opposite of what it takes to thrive in the uncertain world ahead. Thrivers are different: they flourish in our fast-paced, digital-driven, often uncertain world. Why? Through her in-depth research, Dr. Borba discovered that the difference comes down not to grades or test scores, but to seven character traits that set Thrivers apart—confidence, empathy, self-control, integrity, curiosity, perseverance, and optimism. The even better news: these traits can be taught to children at any age...in fact, parents and educators must do so. In Thrivers, Dr. Borba offers practical, actionable ways to develop these traits in children from preschool through high school, showing how to teach kids how to cope today so they can thrive tomorrow.
