Anthropological Theory Feb 02 2020 A comprehensive and accessible survey of the history of theory in anthropology, this anthology of classic and contemporary readings contains in-depth commentary in introductions and notes to help guide students through excerpts of seminal anthropological works. The commentary provides the background information needed to understand each article, its central concepts, and its relationship to the social and historical context in which it was written.

A Cosmopolitan Jurisprudence Sep 22 2021 H. Patrick Glenn (1940–2014), Professor of Law and former Director of the Institute of Comparative Law at McGill University, was a key figure in the global discourse on comparative law. This collection is intended to honor Professor Glenn's intellectual legacy by engaging critically with his ideas, especially focusing on his visions of a 'cosmopolitan state' and of law conceptualized as 'tradition'. The book explores the intellectual history of comparative law as a discipline, its attempts to push the objects of its study beyond the positive law of the nation-state, and both its potential and the challenges it must confront in the face of the complex phenomena of globalization and the internationalization of law. An international group of leading scholars in comparative law, legal philosophy, legal sociology, and legal history takes stock of the field of comparative law and where it is headed.

Another Haul Sep 10 2020 Lewis Island in Lambertville, New Jersey, is the site of the Lewis Fishery, the last haul seine American shad fishery on the nontidal Delaware River. The Lewis family has fished in the same spot since 1888 and operated the fishery through five generations. The extended Lewis family, its fishery's crew, and the Lambertville community connect with people throughout the region, including environmentalists concerned about the river. It was a Lewis who raised the alarm and helped resurrect a polluted river and its biosphere. While this once exclusively masculine activity is central to the tiny island, today men, women, and children fish, living out a sense of place, belonging, and sustainability. In *Another Haul: Narrative Stewardship and Cultural Sustainability at the Lewis Family*

Fishery, author Charlie Groth highlights the traditional, vernacular, and everyday cultural expressions of the family and crew to understand how community, culture, and the environment intersect. Groth argues there is a system of narrative here that combines verbal activities and everyday activities. On the basis of over two decades of participation and observation, interviews, surveys, and a wide variety of published sources, Groth identifies a phenomenon she calls "narrative stewardship." This narrative system, emphasizing place, community, and commitment, in turn, encourages environmental and cultural stewardship, tradition, and community. Intricate and embedded, the system appears invisible, but careful study unpacks and untangles how people, often unconsciously, foster sustainability. Though an ethnography of an occupation, the volume encourages readers to consider what arises as special about all cultures and what needs to be seen and preserved.

Autobiography of a Yogi Mar 05 2020 The autobiography of Paramahansa Yogananda (1893 - 1952) details his search for a guru, during which he encountered many spiritual leaders and world-renowned scientists. When it was published in 1946 it was the first introduction of many westerners to yoga and meditation. The famous opera singer Amelita Galli-Curci said about the book: "Amazing, true stories of saints and masters of India, blended with priceless superphysical information-much needed to balance the Western material efficiency with Eastern spiritual efficiency-come from the vigorous pen of Paramhansa Yogananda, whose teachings my husband and myself have had the pleasure of studying for twenty years."

Enterprise as an Instrument of Civilization Apr 29 2022 In this book, the functions and dynamics of enterprises are explained with the use of anthropological methods. The chapters are based on anthropological research that has continued mainly as an inter-university research project, which is named Keiei Jinruigaku, of the National Museum of Ethnology (Japan) since 1993. These studies have a twofold aim: to clarify that enterprises are not only actors in economic activity but also actors that create culture and civilization; and

to find the *raison d'être* of enterprises in a global society. Business anthropology is an approach to the investigation of various phenomena in enterprises and management using anthropological methodology (e.g., participant observations and interviews). Historically, its origin goes back to the 1920s–30s. In the Hawthorne experiments, the research group organized by Elton Mayo recruited an anthropologist, Lloyd W. Warner, and conducted research on human relations in the workplace by observation of participants. Since then, similar studies have been carried out in the United States and the United Kingdom. In Japan, however, such research is quite rare. Now, in addition to anthropological methods, the authors have employed multidisciplinary methods drawn from management, economics, and sociology. The research contained here can be characterized in these ways: (1) Research methods adopt interpretative approaches such as hermeneutic and/or narrative approaches rather than causal and functional explanations such as "cause–consequence" relationships. (2) Multidisciplinary approaches including qualitative research techniques are employed to investigate the total entity of enterprises, with their own cosmology. In this book, the totality of activities by enterprises are shown, including the relationship between religion and enterprise, corporate funerals, corporate museums, and the sacred space and/or mythology of enterprises. Part I provides introductions to Keiei Jinruigaku and Part II explains the theoretical characteristics of Keiei Jinruigaku. In addition, research topics and cases of Keiei Jinruigaku are presented in Part III.

Talking About People: Readings in Cultural Anthropology Nov 24 2021 How do people learn and experience their culture? How do people make a living? What does it mean to be in a family? How do we make sense of peoples' beliefs and ritual practices? In exploring questions such as these, this cultural anthropology reader focuses on contemporary global concerns and includes a significant number of articles by authors from outside the United States. A dynamic development in the fourth edition is the inclusion of "Anthropology and Public Debate" sections, in which opposing

anthropological arguments on current hot topics are featured. In addition, "Doing Fieldwork" essays consider the nature and dilemmas of fieldwork, the changing status of the field, the nature of anthropological learning in the field, and ethical issues and dilemmas.

Theory in Social and Cultural Anthropology Jun 27 2019 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences. Over the past 150 years, the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it. Consequently, both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar, if they have heard of them at all. Students, in particular, are likely to turn to the web to find quick background information on theorists and theories. However, most web-based information is inaccurate and/or lacks depth. Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics—the "who, what, where, how, and why," if you will. In response, SAGE Reference plans to publish the two-volume *Theory in Social and Cultural Anthropology: An Encyclopedia*.

Features & Benefits: Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory, both in terms of breadth and depth of

coverage. To ease navigation between and among related entries, a Reader's Guide groups entries thematically and each entry is followed by Cross-References. In the electronic version, the Reader's Guide combines with the Cross-References and a detailed Index to provide robust search-and-browse capabilities. An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present. Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion.

The German Financial System Jun 07 2020 Written by a team of scholars, predominantly from the Centre for Financial Studies in Frankfurt, this volume provides a descriptive survey of the present state of the German financial system and a new analytical framework to explain its workings.

Essentials of Nursing Research Oct 31 2019 This eighth edition of *Essentials of Nursing Research*, written by AJN award-winning authors, along with its accompanying Study Guide for *Essentials of Nursing Research*, student learning ancillaries, and instructor teaching materials present a unique learning-teaching package that is designed to teach students how to read and critique research reports, and to appreciate the application of research findings to nursing practice. New to this edition: New text organization with separate sections on quantitative and qualitative research offer greater continuity of ideas to better meet the needs of students and faculty. New online chapter supplements for every chapter expand student's knowledge of research topics. New chapter on mixed methods research, which involves the blending of qualitative and quantitative data in a single inquiry, responds to the surge of interest in this type of research. Increased emphasis on evidence-based practice (EBP) especially in the areas of asking well-worded questions for EBP and searching for such evidence guides the reader from theory to application. Enhanced assistance for instructors with numerous suggestions on how to make learning about and teaching research methods more rewarding.

Love and Marriage Mar 29 2022 Cultural anthropologist Serena Nanda mines a wide range of ethnographic research to examine the patterns of love, marriage, sexuality, and family unique to eight cultures around the world. After reviewing changing patterns in the United States, readers are taken to China, India, Brazil, Iran, Indonesia, Nigeria, the South Pacific, and Nepal to explore traditions and transformations and the intertwining dynamics of kinship, class, politics, religion, and gender roles in love and marriage. An additional chapter traces the diversity of LGBTQ relationships, with contemporary examples drawn from the US, Indonesia, and India. A valuable summary chapter features a brief analysis of similar and different cultural configurations. Nanda's ethnographically rich examples and fresh perspective will challenge readers to understand that their own culture is not natural or superior but rather just one of many possibilities adapted to specific environments and subject to changes.

Cultural Anthropology Jan 27 2022 Cultural Anthropology integrates critical thinking, explores rich ethnographies, and prompts students to skillfully explore and study today's world. Readers will better understand social structures by examining themselves, their culture, and cultures from all over the globe. Serena Nanda and Richard L. Warms show how the analytical understandings and tools derived from over a century of systematically collecting data and thinking about culture can help students analyze, understand, and act effectively in the world. With a practical emphasis on areas such as medicine, forensics, development and advocacy, this book takes an applied approach to anthropology. The authors cover a broad range of theories, both historical and contemporary, without any insistence on any particular approach, and balance it with applied, contemporary, real-world global issues. The new Twelfth Edition includes a wealth of new examples and over 500 references that update ethnographic examples, statistical information, and theoretical approaches.

Kundalini Tantra Jan 15 2021 In the last few decades, yoga has helped millions of people to improve their concepts of themselves. Yoga realizes that man is not only the mind, he is body as well. Yoga has been designed in a such a way that it can complete the process of evolution of the personality in every possible direction. Kundalini yoga is a part of the tantric tradition. Even though you may have already been introduced to yoga, it is necessary to know something about tantra also. Since the dawn of creation, the tantrics and yogis have realized that in this physical body there is a potential force. It is not psychological or transcendental; it is a dynamic potential force in the material body, and it is called Kundalini. This Kundalini is the greatest discovery of tantra and yoga. Scientists have begun to look into this, and a summary of the latest scientific experiments is included in this book.

The Essentials of Clinical Reasoning for Nurses: Using the Outcome-Present State Test Model for Reflective Practice May 19 2021 In today's healthcare environment of scarce resources and challenges related to safety and quality, nurses must make decision after decision to ensure timely, accurate, and efficient provision of care. Solid decision-making, or lack thereof, can significantly affect patient care and outcomes. Clinical reasoning – how a nurse processes information and chooses what action to take – is a skill vital to nursing practice and split-second decisions. And yet, developing the clinical reasoning to make good decisions takes time, education, experience, patience, and reflection. Along the way, nurses can benefit from a successful, practical model that demystifies and advances clinical reasoning skills. In *The Essentials of Clinical Reasoning for Nurses*, authors RuthAnne Kuiper, Sandra O'Donnell, Daniel Pesut, and Stephanie Turrise provide a model that supports learning and teaching clinical reasoning, development of reflective and complex thinking, clinical supervision, and care planning through scenarios, diagnostic cues, case webs, and more.

Cultural Anthropology May 31 2022 Covering the essential concepts that drive cultural anthropology today, Ken Guest's *Cultural Anthropology: A Toolkit for a Global Age* shows

students that now, more than ever, global forces affect local culture and that the tools of cultural anthropology are essential to living in a global society. A "toolkit" approach encourages students to pay attention to big questions raised by anthropologists, offers study tools to remind readers what concepts are important, and shows them why it all matters in the real world.

Globalisation and the Quest for Social and Environmental Justice Aug 29 2019 There are few topics as controversial as globalisation. It is meant to bring economic growth and solve a range of social, cultural and humanitarian problems. However, there are significant debates in relation to the extent that the reality of globalisation reflects this idealized vision. In particular, globalisation has produced a highly interdependent world, rendering state boundaries meaningless and challenging the ideology and limits of certain areas of international law. This book will provide the opportunity to address some of the multifaceted issues provoked by the issue of globalisation. The book is an exploration of the intricate nexus that emerges as a result of globalisation, inextricably linking together issues of international law, human rights, environmental law and international trade law. Bringing together a number of experts in the field, the book focuses on the areas of social justice and environmental justice, and explores the links that exists between the two and the effect of globalisation on these areas. A variety of topics are addressed throughout the chapters of this book - including biodiversity, the law of the sea, biotechnology, child labour, the rights of women, corporate social responsibility, terrorism and counter-terrorism, water resources, intellectual property rights and the role of non-government organisations. As globalisation has many facets and actors, the contributions to the book engage with interdisciplinary research to deal with the various challenges identified, and critically explore both the potential of globalisation as a vehicle of sustainable and equitable development.

Human in Khaki Apr 05 2020 'Human in Khaki' strings together real life incidents and anecdotes of an Indian Police Service officer, who having been born and bred in a rural landscape emerges from IIT Delhi with an intention to serve, finding his true calling as a cop. Written in a 'short stories' mode, the gripping narrative brings to the fore the essence of proactive, people-oriented and effective policing. With the background of real life incidents, the stories bring out different facets of how outcomes could have been much worse, had the police not been sensitive and perceptive to the needs of the ordinary individuals, who do not have the backing of wealthy or influential people. The book addresses contemporary issues that plague modern India such as terror, the widening gap between the haves and have-nots, crime against women, the changing value system and most significantly basic police procedure that is designed to serve the powerless and yet mostly ends up serving a powerful few. It is a very bold and honest book from a serving Police Officer, which depicts stark realities of policing at

district level, including the tout culture in Police Stations that keeps common man away from the Police. While the book should serve as a mirror to men in uniform and the public services about their own functioning, it will also allow the public at large a 'peep' into the working of the police and thus encourage and empower the man-on-the street to ensure that he is served with greater efficiency.

An Anthropology of Anthropology Jun 19 2021

The book uses anthropological methods and insights to study the practice of anthropology. It calls for a paradigm shift, away from the publication treadmill, toward a more profile-raising paradigm that focuses on addressing a broad array of social concerns in meaningful ways.

Gender & Difference in a Globalizing World

Feb 25 2022 Francis E. Mascia-Lees' ability to synthesize complex ideas rewards readers with a text that clearly conceptualizes how differences of gender, race, class, and sexuality structure today's globalizing world. It exposes the strengths and weaknesses of different theoretical orientations used in anthropology to study gender, difference, power, and inequality including feminist anthropology; black feminist anthropology; lesbian/gay/bisexual/transgendered theory; practice, postcolonial, symbolic, and psychological anthropology; as well as social evolutionism, sociobiology, and evolutionary psychology, among others. Mascia-Lees combines core components of these perspectives with insightful analyses and ethnographic examples to illustrate how global events and transformations have molded and continue to shape gender identities, behaviors, and expectations and produce and sustain worldwide inequalities. This exemplary treatment provides a solid background to understand complex issues and to think critically about remedying uneven degrees of privilege and experiences of oppression both within and across nations.

Politics of Culture in Iran Jan 03 2020 This first full-length study of the history of Iranian anthropology charts the formation and development of anthropology in Iran in the twentieth century. The text examines how and why anthropology and culture became part of wider socio-political discourses in Iran, and how they were appropriated, and rejected, by the pre- and post-revolutionary regimes. The author highlights the three main phases of Iranian anthropology, corresponding broadly to three periods in the social and political development of Iran: *the period of nationalism: lasting approximately from the constitutional revolution (1906-11) and the end of the Qajar dynasty until the end of Reza Shah's reign (1941) *the period of Nativism: from the 1950s until the Islamic revolution (1979) *the post-revolutionary period. In addition, the book places Iranian anthropology in an international context by demonstrating how Western anthropological concepts, theories and methodologies affected epistemological and political discourses on Iranian anthropology.

Gender Diversity Oct 04 2022 Anthropologist Serena Nanda has heralded the importance of understanding human similarities and differences throughout her writing and teaching career. This was especially evidenced in her groundbreaking work, *Gender Diversity:*

Crosscultural Variations, a masterful, far-reaching examination of the relationships between sex, gender, and sexuality and how they are culturally constructed. Rich ethnographic examples representing nine cultures illuminate the need to analyze sex/gender roles and identities on the basis of broad cultural patterns and distinct cultural features, including social class, ethnicity, age, religion, urban or rural residence, and exposure to Western cultures. The latest edition incorporates new material on hijras in Bangladesh, three gender alternatives in Indonesia, and global changes related to migration, health, and communication. Concept-reinforcing questions have been added to each chapter. *Gender Diversity, Second Edition* encourages readers to think in new ways about what they consider natural, normal, or morally right. As a concise supplement with multidisciplinary appeal, the enhanced edition is sure to energize the undergraduate classroom.

Assisted Dying Nov 05 2022 *Assisted Dying* is an ethnographically-based murder mystery that uses the unexplained deaths of elderly people on Florida's Gold Coast to examine American cultural values. Diversity, immigration and the American Dream, and aging, retirement, death, and dying are just some of the issues illuminated. The novel skillfully draws readers in, teaching students key concepts in the social sciences as they follow cultural anthropologist Julie Norman in her quest to solve the dark mystery.

Communication Between Cultures Aug 22 2021 Packed with current research and examples, bestselling COMMUNICATION BETWEEN CULTURES, 9E equips readers with a deep understanding and appreciation of different cultures while helping them develop practical communication skills. Part I introduces the study of communication and culture; Part II focuses on the ability of culture to shape and modify our view of reality; Part III puts the theory of intercultural communication into practice; and Part IV converts knowledge into action. This is the only text to consistently emphasize religion and history as key variables in intercultural communication. Compelling examples help readers examine their own assumptions, perceptions, and cultural biases--so they can understand the subtle and profound ways culture affects communication. The ninth edition offers expanded discussions of the impact of globalization, a new chapter on intercultural communication competence, and more coverage of new technology. Our Social World Aug 10 2020 In this brief text, two leaders of the Teaching Sociology movement encourage students' development of their sociological imaginations through role-taking. Assuming the role of a child living in poverty in India or of a member of an African tribe, students learn to re-envision their global society. An innovative, integrated framework provides core sociological concepts, while features such as Contributing to Our Social World enable students to "do" public sociology. Our Social World: Condensed Version presents the perspective of students living in the larger global world.

Distant Mirrors Oct 24 2021 Most young students of American culture believe many of the cultural assumptions they grow up with are universal. As insiders, speaking a common language, following the accepted patterns of behavior embedded in a particular way of life, most of us take our own social actions for granted, and it is a challenge to realize the strangeness and wonder of our own behaviors. The distinct aim of each edition of this popular classroom supplement has been to enable students to better understand themselves by casting American culture into sharper relief—offering other mirrors, other reflections. The latest edition's twenty-one personalized narratives, of which seven are new, unveil fresh portrayals of American culture. Each

contribution offers unique ethnographic perspectives of various aspects of American culture that enable us to better understand ourselves.

3D Echocardiography Mar 17 2021 Since the publication of the second edition of this volume, 3D echocardiography has penetrated the clinical arena and become an indispensable tool for patient care. Nursing Diagnoses 2012-14 Jul 29 2019 A nursing diagnosis is defined as a clinical judgment about individual, family or community responses to actual or potential health problems or life processes which provide the basis for selection of nursing interventions to achieve outcomes for which the nurse has accountability (NANDA-I, 2009). Accurate and valid nursing diagnoses guide the selection of interventions that are likely to produce the desired treatment effects and determine nurse-sensitive outcomes. Nursing diagnoses are seen as key to the future of evidence-based, professionally-led nursing care - and to more effectively meeting the need of patients. In an era of increasing electronic patient health records, standardized nursing terminologies such as NANDA-I, NIC and NOC provide a means of collecting nursing data that are systematically analysed within and across healthcare organizations and provide essential data for cost/benefit analysis and clinical audit. Nursing Diagnoses: Definitions and Classification is the definitive guide to nursing diagnoses, as reviewed and approved by NANDA-I. Each nursing diagnosis undergoes a rigorous assessment process by NANDA-I's Diagnosis Development Committee, with stringent criteria used to indicate the strength of the underlying level of evidence. Each diagnosis comprises a label or name for the diagnosis, a definition, defining characteristics, risk factors and/or related factors. Many diagnoses are further qualified by terms such as risk for, effective, ineffective, impaired, imbalanced, self-care deficit, readiness for, disturbed, decreased, etc. The 2012-2014 edition is arranged by concept according to Taxonomy II domains, i.e. Health promotion, Nutrition, Elimination and exchange, Activity/Rest, Perception/Cognition, Self-perception, Role relationships, Sexuality, Coping/ Stress tolerance, Life principles, Safety/protection, Comfort, and Growth/development. The 2012-2014 edition contains revised chapters on NANDA-I taxonomy, and slotting of diagnoses into NANDA & NNN taxonomies, diagnostic

reasoning & conceptual clarity, and submission of new/revised diagnoses. New chapters are provided on the use of nursing diagnoses in education, clinical practice, electronic health records, nursing & health care administration, and research . A companion website hosts related resources. Key features 2012-2014 edition arranged by diagnostic concepts Core references and level of evidence for each diagnosis New chapters on appropriate use of nursing diagnoses in clinical practice, education, administration and electronic health record 16 new diagnoses 11 revised diagnoses Aimed at students, educators, clinicians, nurse administrators and informaticians Companion website available, including a video on assessment, clinical reasoning and diagnosis *Culture Counts* Aug 02 2022 Now with SAGE Publishing! *Culture Counts* is a concise introduction to anthropology that illustrates why culture matters in our understanding of

humanity and the world around us. Serena Nanda and Richard L. Warms draw students in with engaging ethnographic stories and a conversational writing style that encourages them to interact cross-culturally, solve problems, and effect positive change. The brief format gives majors and non-majors the essentials they need and frees up the instructor to teach the course the way they want to teach it. The Fifth Edition includes new examples and vignettes that are important to the study of cultural anthropology. Issues of gender, identity, globalization, intersectionality, inequality, and public health have been incorporated throughout the book, as well as a new chapter on race and ethnicity that brings the book in step with recent conversations about power, race, and history.
