Finding Blindness Apr 05 2020 This edited volume explores blindness as a construct with
which we the contributors engage as part of our social existence and/or academic research.
Irrespective of eye conditions, or the lack thereof, blindness is an understanding at which
we have all come to arrive. On the way to this conceptual point, which is in any case
unlikely ever to be fixed, we have passed or visited many formative cultural stations. In the
terms of autocritical disability studies (i.e. an explicitly embodied development of critical
disability studies), these cultural stations include key moments in education and training;
the reflective pursuits of philosophy, aesthetics, and cultural theory; literary works such
as autobiography, novels, short stories, drama, and poetry; visual texts ranging from
photography to postage stamps; technological developments like television, computer
applications, and social media; value systems defined by family and/or religion; and the
social phenomenon of hate and war. Each chapter in this volume engages with two of these
cultural stations; some ostensibly if not profoundly positive or indeed negative, some that

contradict each other within and across chapters. This book will be of interest to all scholars and students of disability studies, sociology, education and health.

Tipu Sultan- The Tyrant of Mysore Oct 24 2021 This book is part of a series of books aimed at disseminating the accurate history of India drawn from the primary sources. History writing, especially about the medieval Muslim rule has been fraught with political correctness, controversy, and in several cases, downright falsification. This has occurred mostly with official state patronage. As a result, any attempts to correct this course has been virulently opposed with the result that most urban-educated Indians have now internalized a politically correct version of Indian history. The history of Tipu Sultan too, stands as a glaring instance of this distorted historical narrative. Indeed, we have seen, read, and heard about a lot of people claiming to be freedom fighters and receiving pensions from the Government. Several of these worthies would not have been born before Independence yet they succeed in such blatant manipulations. There are instances of portraying certain rulers and chieftains as true heroes who fought against the British Empire. One such ruler happens to be Tipu Sultan. Tipu Sultan is widely known as the Tiger of Mysore. Indeed, the image of Tipu battling a tiger barehanded crosses the mind whenever his name is mentioned. But is this the truth? Was Tipu Sultan truly the warrior as he has been portrayed? What exactly is his record of fighting the British? Was he really a freedom fighter as is widely claimed? Sandeep Balakrishna in this well-researched book, explores both the myths and the truth surrounding Tipu Sultan. A must-read for those who wish to learn the true story of Tipu Sultan.

Making News in Global India Nov 05 2022 In the decades following India's opening to foreign capital, the city of Bangalore emerged, quite unexpectedly, as the outsourcing hub for the global technology industry and the aspirational global city of liberalizing India. Through an ethnography of English and Kannada print news media in Bangalore, this ambitious and innovative new study reveals how the expanding private news culture played a critical role in shaping urban transformation in India, when the allegedly public profession of journalism became both an object and agent of global urbanization. Building on extensive fieldwork carried out with the Times of India group, the largest media house in India, between 2008 and 2012, Sahana Udupa argues that the class project of the 'global city' news discourse came into striking conflict with the cultural logics of regional language and caste practices. Advancing new theoretical concepts, Making News in Global India takes arguments in media scholarship beyond the dichotomy of public good and private accumulation.

This encyclopedia provides a thorough overview of media within social and cultural contexts, exploring the development of the mediated communication industry, mediated communication regulations, and societal interactions and effects. This reference work will look at issues such as free expression and government regulation of media; how people choose what media to watch, listen to, and read; and how the influence of those who control media organizations may be changing as new media empower previously unheard voices. The role of media in society will be explored from international, multidisciplinary perspectives via approximately 700 articles drawing on research from communication and media studies, sociology, anthropology, social psychology, politics, and business.

Women Empowerment May 19 2021 There are some wonderful monographs which deal with the issues of women at the national and global level, but no work of their equivalent has been produced so far with the exclusive purpose of analyzing and reviewing the position and predicaments of women limited to the district of Dakshina Kannada. In this book, Dr. Hegde and Dr. Gowda make attempts to describe the subject of women empowerment in the district, the hurdles in the way of materializing it, and to suggest the general lines on which the various problems that confront women should be tackled in order to get a fairly satisfactory solution. Based on the detailed analysis of the working of women organizations towards realizing the goal of empowerment, the book draws on the districts' literary sources to explain it in a distinctive way. The work will enable the reader to understand the subject in true perspective, as it is based on impartial survey of all the available data. Carefully researched and analyzed, this book will form an essential reading for all those interested on the issues of women empowerment and the contributions of the women organisations towards it in general and the DK district of Karnataka in particular. Traditional approaches to the empowerment of women, particularly in developing countries, tend to stress the primacy of poverty alleviation; this book attempts to explain, along with poverty issue, how other factors such as illiteracy, poor health, lack of opportunity to participate politically etc. fail the goal of women empowerment set in various programmes of the governmental and non-governmental agencies.

People with average potential can also polish and

refine themselves to reach their desired goal. It is only after reading the book that one realizes the true meaning of 'Try Again'. The Future of Christian Mission in India May 31 2022 Colonial missionaries, both Catholic and Protestant, arrived in India with the grandiose vision of converting the pagans because, like St. Peter (Acts 4:12) and most of the church fathers, they honestly believed that there is no salvation outside the church (extra ecclesiam nulla salus). At the end of the "great Protestant century," however, Christians made up less than 3 percent of the population in India, and the hope of the missionary was nearly shattered. But if one looks at mission in India qualitatively rather than quantitatively, one sees a number of positive outcomes. Missionaries in India, particularly Protestant missionaries espousing the social gospel, in collaboration with a few British evangelical administrators, dared to challenge numerous social evils and even began to eradicate them. The scientific and liberal English education began to enlighten and transform the Indian mindset. Converts belonging to the upper caste, although small in number, laid the foundation stone of Indian theology and an inculturated church using Indian genius. The end of colonialism in India coincided with the painful death of colonial mission theology. Now, the power of the Word of God, extricated from political power, is slowly and peacefully gaining ground, like the mustard seed of the parable. A paradigm shift from the ecclesio-centric mission to missio Dei offers reason for further optimism. In short, the future of mission in India is as bright as the kingdom of God. In today's new context, theologians, despite objections from some quarters, are struggling to discover the Asian face of Jesus, disfigured by the Greco-Roman Church. And the missionary is challenged to become a living Bible that, undoubtedly, everyone will read.

ABC OF THE SRFAESI ACT, 2002 (Basics of the Act - Including case laws) Mar 05 2020 The Government of India enacted special laws viz., the SRFAESI and RDB Acts to help speed up the recovery process of non-performing assets, by vesting the banks and F/Is with extra-ordinary powers for self-enforcement of security interests given as collaterals per mortgage in favour of the lenders. This book explains different stages of recovery process; rehabilitation measures expected of the / banks / FIs to help revive those temporarily sick but economically viable units facing brief span of mis-match in the flow of working funds; the RBI norm of 90 days to classify a loan account as NPA (Non-Performing Asset), when and whom to approach in case of objection to lender's action under Sec.13(2) of the SRFAESI Act, 2002; and about the remedy available till the last stage of execution but before confirmation of sale and transfer subject to Rules 8 & 9 of the SI(E) Rules, 2002 read with IT rule 15 relating to attachment of property. Any action for recovery under the SRFAESI or RDB Acts should strictly be in accordance with and in the manner and order of priority as laid down in the provisions of law, read with the relative Rules and RBI directives / guidelines. This book helps readers to understand nuances of the provisions of SRFAESI Act, 2002 and RDB Act, 1993; read with the relative Rules and RBI directives / guidelines. Honest and sincere borrowers / guarantors and / or any aggrieved party are assured of justice, when the process of law is being misused by lenders apparently in a perverse and absurd manner.
